

2000 YEARS OF HISTORY
WITH THE DOUGH RECIPE'S ROOTS DATING BACK TO ANCIENT ROMAN EMPIRE TIMES, THE NEW PINS ROMANA IS AN EVOLUTION OF PIZZA RECREATED FROM AN OLD TRADITIONAL FAMILY RECIPE INCORPORATING MODERN TECHNIQUES.

PINSA VS PIZZA: NUTRITIONAL DIFFERENCES

HOW MUCH HEALTHIER IS THE PINSA THAN A NORMAL PIZZA?

48% LESS SUGAR
85% LESS FAT
100% LESS CHOLESTEROL
33% LESS KCAL

HIGH HYDRATION & HIGHLY DIGESTIBLE

Our dough mixture contains prime quality wheat, rice, and soy flour, non-GMO!

- high quality wheat is able to absorb more water
- rice gives soft and crunchy texture
- soy replaces all animal fats

Pinsa has 75% hydration while a traditional pizza only has 50%. Most importantly, our 48 hour maturation process allows the transformation of complex sugars into simple sugars which makes the dough highly digestible for the body.

NATURAL LOW FATS

During the Pinsa's kneading we don't use animal fats but exclusively a little amount of extra virgin oil.

SALADS
